Profile

Junior Operations & Quality Engineer with hands-on experience in industrial manufacturing environments.

Currently Quality Engineering Intern at Nespresso, with strong exposure to shopfloor operations, quality standards, DMS routines and cross-functional collaboration with production and maintenance teams.

Profile oriented toward process reliability, compliance, and continuous improvement in high-performance industrial settings.

Key Strengths

- Manufacturing & Shopfloor Operations
- Quality Management Systems (NC, CAPA, Standards, Traceability)
- DMS & Operational Routines (CIL, CL, Standard Work)
- Lean & Continuous Improvement (5S, PDCA, Visual Management)
- KPI Tracking & Data Analysis (Excel)
- Safety & Compliance Mindset
